

Gallaudet College has a new exhibit, designed by graphic artist Charles Robertson. Exhibit Manager Pete Moran recently displayed the new exhibit at meetings of the American Association of School Administrators and Association for Children with Learning Disabilities conferences in Atlanta and the Association for Supervision and Curriculum Development in St. Louis, MO.

You can help improve mail service

by Kayt Lewis

The Kendall Green Station is beginning a systematic review of all aspects of its campus mail service. One of our first priorities is in improving and expediting outgoing departmental meter mail. However, we need your help in this effort. Outgoing meter mail must be prepared in the following manner:

1. Unsealed envelopes must have the letter flaps standing up overlapping one another. The meter machine will automatically seal letters prepared this way.
2. Envelope stacks must be securely wrapped with rubber bands. Rubber bands may be obtained from the Post Office.
3. Large envelopes must be marked to indicate the class at which they will be sent, i.e. FIRST CLASS, THIRD CLASS, AIR MAIL.
4. Air Mail, Special Delivery and letters to be sent Certified or Registered must be placed at the top of the stack to ensure proper handling. Specially marked Air Mail envelopes will be distributed soon by the Post Office.

We are also working to improve our campus mail delivery system and here again the Post Office needs your cooperation. Legible addresses on campus mail, including the first and last name of the addressee and his or her department and building, will speed delivery. Mail that has been incorrectly delivered to your department should be dropped back into campus mail in time for the next pick-up so it can be properly redistributed. If the mail is directed to someone who has trans-

ferred from your department to another, please inform us of the change.

The Post Office has recently instituted a change of address notification system. If you did not return a change of address card, do so as soon as possible. We hope this new system will allow us to keep up with staff and faculty location changes and prevent delays in your mail service.

Children's play begins April 9

Gallaudet College Theatre is pleased to announce its upcoming children's production, *Peter and the Wolf*. This year's production will be an adaptation by Victoria Brown of the Russian folk tale "Peter and the Wolf." Prokofiev's well-known orchestration will be used to underscore this highly visual production.

Performance dates are April 9, 10 and 11 at 7:30 p.m. and April 11 at 2 p.m. All performances will be held in the Gallaudet College Auditorium. The production will be appropriate for children from five years old on up.

Tickets are \$2 for students and children and \$3 for all others. Box Office hours are:

March 30-31	2-5 p.m.
April 1-3	2-5 p.m.
April 6-10	2-7:30 p.m.
April 11	Noon-7:30 p.m.

Phone reservations can be made by calling x5605 (voice only) or x5608 (TDD).

Charter Day 1981

Mark your calendars for Saturday, April 11. That's when Gallaudet College will celebrate Charter Day, to commemorate President Abraham Lincoln's April 8, 1864 signing of the charter granting Gallaudet College the authority to award liberal arts degrees to deaf persons.

A number of activities have been planned for the Gallaudet community to celebrate the day, in addition to other activities that will be going on during the week.

As last year, all Gallaudet employees and their families are invited to attend a free picnic on April 11 at the top level of the MSSD Parking Structure. The picnic will include lots of food, soft drinks and cold beer. You should be getting a Charter Day brochure in the mail soon; if you plan to attend the picnic, fill out the reservation card.

Most of the day's activities will take place on the College Plaza, where a striped tent will be set up, you can get free Charter Day balloons and cotton candy, play on the "Moon Bounce" and meet the new officers of the Gallaudet College Student Body Government.

A special highlight of the day will be the dedication of Benson Hall, named for the late Dr. Elizabeth Benson, former Gallaudet Dean of Women. This program will begin at 10 a.m. near the Benson Hall entrance.

Under the direction of the Student Body Government and the Student Union, tours of the newly-renovated Student Union Building and Ely Hall will be given that Saturday from 11 a.m.-noon and again from 2-3:30 p.m. Tours of the new Learning Center will also be given from 11 a.m.-12:30 p.m. and from 2-3:30 p.m.; meet at the Circulation Desk to pick up a tour.

The Phi Kappa Zeta Sorority will have its biennial Bazaar in the Women's Gym, beginning at 10 a.m. on April 11 and continuing until 2 a.m. on April 12.

The Gallaudet College Theatre will present a special children's production of "Peter and the Wolf" on April 11 at 2 p.m. and again at 7:30 p.m. in the Auditorium. Tickets are available at the box office.

Special Gallaudet College Alumni Association activities will include the GCAA Annual Exhibition of Arts, Crafts and Photography which will be held in the Washburn Arts Center April 7-12. The exhibition will feature works by deaf artists, hobbyists and members of the Gallaudet College community and will be open from 10 a.m. to 4 p.m. Items will be on sale April 11 and 12.

The GCAA Charter Day Banquet begins at 5:30 p.m. April 11 and will be held in the upper level of the College Dining Hall. Alan B. Crammatte, '32, will be the master of ceremonies. Guest speaker will be Dr. Robert J. Smithdas, director of Community Education at the Helen Keller National Center for Deaf-Blind Youths and Adults. Dr. Smithdas is deaf and blind and has authored the book, *Life at My Fingertips*, as well as 50 poems.

DRCC elections happen soon

During April, the Deafness Related Concerns Council will hold an election for three Council positions. Ballots will be sent out this Friday, March 27, and April 8 is the deadline for returning ballots.

The Council has a total of six elected members. Three are elected annually to serve a two-year term. The incumbent members are Ausma Smits, chairperson; Larry Berke and Stanley Benowitz.

The nominations committee has agreed on the following six persons to run for election: Harvey Goodstein, assistant professor of Mathematics; Mike Kaika, writer, Alumni and Public Relations Office; Barbara Kannapell, researcher, Linguistics; Matt Searls, counselor, Counseling and Placement; Debbie Sonnenstrahl, assistant professor, Art; and Barbara Stevens, assistant professor, English.

The individuals who are elected are expected to speak for the concerns of the deaf faculty and staff as a whole rather than to represent any particular division, school or department. Winners will be announced after the election.

Serendipity

Library Bits & Pieces

New media

by Regina Feldman

Now that spring is just around the corner, some of you may be thinking about getting into shape by cycling. The Gallaudet College Library has a new filmstrip and sound cassette on bicycling. Topics discussed are selecting and maintaining your bike as well as touring. A set of spirit masters is also included, illustrating parts of a bike and a check list for maintaining your bike. You can find this set in the Learning Center at Media 796.6.

Energy is a topic of interest to many people these days with the rising cost of fuel. The Library has recently acquired three sets of slides about solar energy and also new sources of energy. Each set is accompanied by a script giving explanations about the slides. One set is exclusively about solar homes (Media 728.6) and another about solar power systems (Media 621.47) shows various

ways sunlight can be concentrated to produce usable energy. The third set shows the efforts now underway to develop new sources of energy (Media 621).

"Karen" (Media DEAF 371.252), part of the "We did it . . . so can you!" series, discusses mainstreaming deaf children. Karen's teachers and parents talk about her progress and how the program is working for her. A filmstrip, sound cassette and guide accompany this set.

Another filmstrip/cassette that may interest people is "Know us as we are" (Media DEAF 920). It introduces four emotionally and physically handicapped teenagers, emphasizing ways in which they have learned to function effectively.

If you are interested in these or other media items, stop by the Individualized Learning desk on the lower level of the Learning Center or call x5579 (TDD) or x5580 (voice).

Karen Dickerson is a secretary with the Department of Counseling.

Gallaudet to host regional workshop on computer aid for handicapped

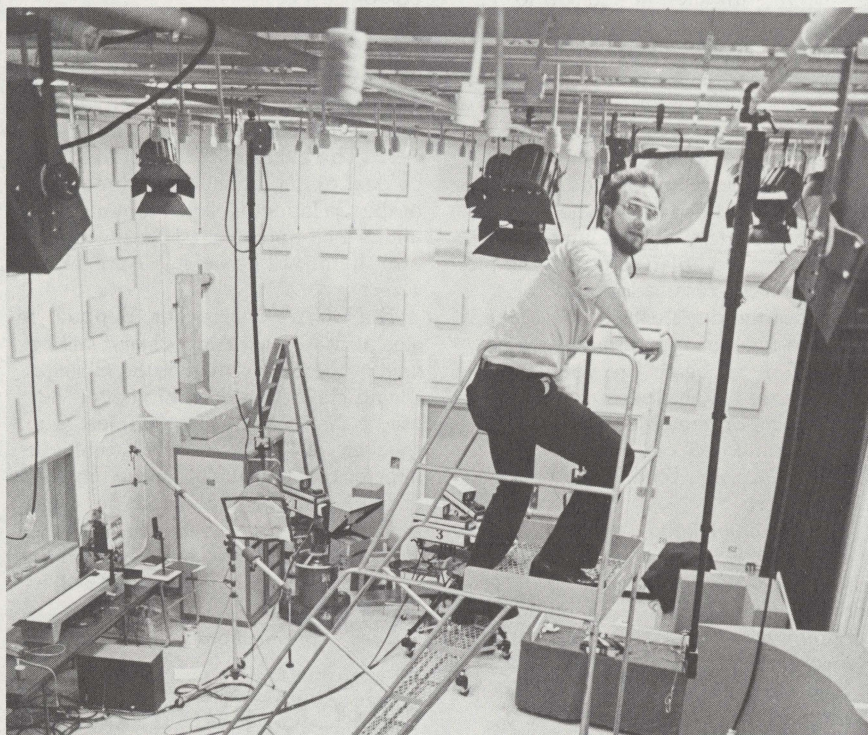

Gallaudet will host a Washington regional workshop this Saturday, March 28, to acquaint persons in the area with a nationwide search being conducted on personal computing to aid handicapped persons.

The Johns Hopkins University has received a grant from the National Science Foundation to fund a national search for applications of home computers to aid handicapped persons. As part of this search effort, regional workshops are being held across the United States to acquaint both microcomputer users and handicapped persons with this project. College Educational Resources has been asked to coordinate efforts with Johns Hopkins by hosting the Washington regional workshop.

A display will be set up in LE 60 of

the Learning Center this Friday, March 27, focusing on some of the applications of home computers for the handicapped. Two working sessions are scheduled on March 28, one from 9-11 a.m. and the other from 11-1 p.m. About 200 people are expected to attend the sessions, which will focus on contest regulations and the potential areas of need in the field. Attendance at the workshop is not mandatory for people interested in the search and contest entry.

A \$10,000 grant prize will be awarded to the first place winner in the nationwide search, and more than 100 other awards will also be given. The program is made possible by Radio Shack as well as by the grant from the National Science Foundation.

Production Specialist Herb Pearson helps get the new TV studio in the Learning Center in working order.

Charter Day

continued from page 1

The banquet program will include the presentation of the Laurent Clerc Cultural Fund Awards and the GCAA/Alexandria-Potomac Lions Club Outstanding Young Alumnus Award. Winners of the GCAA Art Exhibit will also be announced.

Banquet tickets are \$11 per person. For reservations, contact Polly Peikoff in the Alumni and Public Relations Office, x5104 TDD or x5100 voice, or send her a check or money order made out to the Alumni and Public Relations Office.

During that week, the GCAA Fifth Annual Alumni Leadership Training Program will be happening April 8-12. Eight chapters have been invited to send a representative to this workshop. These eight participants will have the opportunity to learn how they and their chapters can continue to support Gallaudet and will also be brought up-to-date on the changes happening here.

The GCAA Board of Directors will hold its regular meeting April 10 in the Learning Center. Highlights of the meetings will be printed in a later issue.

Health care seminar to be held Friday

A seminar on "Health Care Delivery for Deaf Patients: Assessment and Communication" will be held at Gallaudet this Friday, March 27. It's being sponsored by the National Academy of Gallaudet and the Catholic University of America School of Nursing.

The seminar is open to all health care professionals who may have contact with hearing impaired patients. The program will include formal instruction as well as practicum activities. Interpreters will be available for all sessions.

A similar seminar was held in Atlanta, GA last October, and another one is scheduled in Philadelphia, PA for May 23.

For further information, contact Terri Baker at x5480.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from Glenn Pfau, Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
04/01/81	NEH—Pilot Grants for Higher Education
04/01/81	NEH—Basic Humanities Research
04/01/81	NEH—Elementary and Secondary Education Grants
04/01/81	NEH—Summer Seminars for College Teachers
04/01/81	ED—Women's Educational Equity Programs
04/01/81	HSA—Family Planning Services (Research)
04/09/81	OHDS—Child Abuse Prevention Research
04/21/81	NIE—Opportunities in Educational Research
04/24/81	ED—Law Related Education Program
05/06/81	ED/NIE—Knowledge Use/School Improvement
05/31/81	CDC—Nutrition Cooperative Agreement Programs
06/30/81	NIJ—Adult Criminal Justice Research
07/01/81	NIA—Aging Research

How to win a contract

The contract and grant are widely confused, even by the agencies that issue them. In fact, they are two very distinct types of funding mechanisms. When the federal government awards a contract, it is simply buying something it wants. The work requirements are specified by the funding agency. In short, a contract is an instrument to procure research. On the other hand, grant ideas are originated by the applicant. A grant thus becomes an agreement to support a research or service idea. Often the decisive factor on whether a program emerges as an RFP or as a grant is whether more money is available in the budget for contracts or whether the lion's share of research money is earmarked for grants.

What is the most important factor in winning federal grants and contracts? A California university survey of 10,000 federal contracts showed that the common denominator among successful applicants was not the academic degree of the principal investigator or how often he or she had been published, the time spent preparing the proposal, or even whether the organization had been funded before. The only variable that was statistically significant was whether or not the recipient had spoken with the funding source before writing the proposal. In fact, pre-proposal contact tripled the chances of the applicant.

A Message from the President

Rotary to visit Gallaudet

by Linda Wieboldt

Over the years, Gallaudet College has been fortunate to have the strong support and commitment of many friends, service organizations, associations, fraternities and sororities. Gallaudet is special to these groups because our students are special. In recognition of this, our friends have generously provided scholarship assistance and other financial aid for the benefit of large number of both former and present students. The College will soon have the honor of being host to one of our strongest supporting organizations.

On Thursday, March 26, approximately 50 members of Rotary District 762 will visit Kendall Green. The visit will enable Rotary Club members to become acquainted with Gallaudet students whom they have supported with scholarship funds. Henry Tate, chairman of District 762, which includes central Maryland and Washington, DC, requested a "working" day with plenty of involvement with students.

The group is scheduled to arrive on campus at 11 a.m. and will officially be welcomed by Dr. Merrill in the Learning Center. A 45-minute sign language instruction for three groups of 15 to 20 people will follow. This instruction is designed to give the Rotarians a brief introduction to sign language and to teach them a small vocabulary of signs to use with students, faculty and staff

they may encounter during the day.

The Rotarians will be joined by Rotary Scholarship recipients, faculty and staff members for a buffet luncheon in the College Dining Hall. Traditional luncheon speeches will be eliminated at the Rotarians' request to facilitate interaction among guests. After lunch, the Gallaudet Dancers will perform for the group in Kendall Auditorium. This will be followed by a brief presentation by past and present recipients of the Rotary Scholarship Fund.

The Rotary Club's involvement with Gallaudet dates back to 1972. At that time, interest in Gallaudet was sparked by President Emeritus Dr. Leonard Elstad, who as a Rotarian spoke often to his fellow club members about the needs of Gallaudet students. Henry Tate and Dr. John Sever formed a committee to oversee the establishment of a scholarship fund. A relationship between Gallaudet and Rotary developed as Gallaudet students were introduced at various Rotary Club meetings through the Washington, DC area and members of Rotary visited Kendall Green.

In 1974, at the District Convention, the Gallaudet Scholarship Fund was approved as the fundraising activity of District 762. Vira Confectioner was the first recipient of the Rotary Scholarship. District 762 has raised more than \$45,000 for the endowment of the fund. Twenty-six students with demonstrated academic ability and financial need have received Rotary Scholarships.

New TDDs

Equitable Federal Savings and Loan Association, at 915 F St., NW, has a new TDD. That number is 347-7376. Staff at Equitable also know sign language.

If you need help filling out your income tax forms, the Internal Revenue Service has a toll-free TDD number. It is 800-428-4732. You may reach the IRS at this number Monday to Friday from 8:30 a.m.-6:45 p.m.

Published each Monday for staff and faculty of Gallaudet College by the Office of Alumni and Public Relations.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

It's officially spring!

MSSD student named by Star to basketball team

The Washington Star has named Joey Vincent, a MSSD sophomore, to First Team, All Independent Schools for the 1980-81 basketball season.

The six-foot forward had a total of 608 points in 22 games for an average of 27.6 points, which leads the Metro DC area. His rebound average is 16.2 and his assist per game average is 2.1

MSSD's record for the season is seven wins and 15 losses. MSSD's standing improved in the Eastern Schools for the Deaf Basketball Tournament from last year's seventh place to fifth place finish this year.

Diane Adams, a planning specialist with Pre-College Outreach, shares information on materials available for the classroom teacher through Pre-College Programs with persons from the Johnson County Community College service area who are involved with hearing impaired youngsters. Adams was invited by the Gallaudet Extension Center at JCCC to make a presentation of materials, curriculum, aids, videotapes and other available items. She met with more than 70 educators during her stay in late February.

"Children of a Lesser God" begins March 31 at the National Theatre

"Children of a Lesser God," the Tony Award-winning Best Play of 1980, will be at the National Theatre March 31-May 9. The play stars Peter Evans and Linda Bove in the roles of James Leeds, a young teacher of the deaf, and Sarah Norman, his student. Bove has appeared in numerous roles for the National Theatre for the Deaf and is a regular on the TV program "Sesame Street."

"Children of a Lesser God" will offer special discounts for groups of 20 or more: a 20% discount for the preview performances on Tuesday evening March 31 and Wednesday matinee April 1, and a 10% discount for all other performances except Friday and

Saturday evenings.

The National Theatre also offers special half-price tickets to students, senior citizens, military personnel and handicapped persons for Monday through Thursday performances.

Two local groups are sponsoring benefit performances of the play. The IAPD is selling tickets for the evening of April 2 (call 585-5400 voice or TDD), and Deaf Interfaith: Theological Advocacy Service is selling tickets for the evening of March 31 (call OCM at x5347 voice or TDD).

For further information about the play you can call the National Theatre at 628-5959.

NAD section formed to serve deaf community at public libraries

To better serve members of the deaf community at public libraries, a group of "Friends of Libraries for Deaf Action" has become organized and is forming a section within the National Association of the Deaf to be called Library and Information for Deaf Action (LIDA).

Among the group's goals are to alert deaf and hard of hearing people of the varying library and information needs among themselves when using public libraries or other public services.

NAD/LIDA is now developing a project called the Red Notebook concept in cooperation with the American Library Association's new Library Service to the Deaf Section. The Red Notebook concept would provide a central depository of easily updated "detachable" information on deafness, services for the hearing impaired and library services. It is hoped that this concept will spread to every state within the next few years through the American Library Association and the NAD.

For more information about the NAD/LIDA or the Red Notebook concept, you can send a self-addressed stamped envelope to:
Library for Deaf Action
F Street Station Box 50045
Washington, DC 20004

Theresa Tinch-Adams is a secretary in the Office of the Dean of Student Affairs

Information about Deafnet available

If you're interested in knowing about how to operate Deafnet, the computerized telephone service for deaf persons, come to Hall Memorial Building Room #175 on Tuesdays from 5-7 p.m.

Among Ourselves

Larry Goldberg, Elaine Gardner and Sy DuBow of the Law Center have had an article, "Rights of Deaf: Ensuring Effective Communication," printed in the February, 1981 issue of *Trial*, a national legal news magazine.

Andy Penn, staff attorney at the Law Center, traveled on Feb. 25 to Kansas City, MO to give a talk at a conference on Compliance with Section 503, sponsored by Mainstream, Inc. Penn spoke to local business officials on Section 503 of the Rehabilitation Act which requires firms that receive more than \$2,500 in federal contracts to take affirmative action in hiring, promoting and other employment actions when dealing with the handicapped.

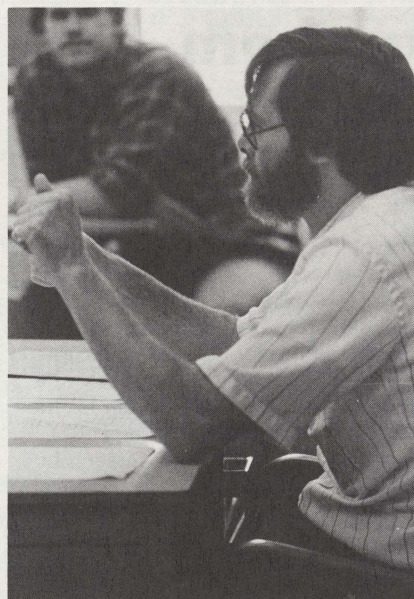

"Burnout in Professionals Working with Deaf Children," an article by Kathryn Meadow of the Research Institute, appeared in the February issue of the *American Annals of the Deaf*. Meadow was recently interviewed by the CBS Radio Network on the topic "A New Language for the Deaf Child."

Lottie Riekehof, chairperson of the Department of Sign Communication, has received a letter of appreciation from Rep. Mark Hatfield on behalf of the Joint Congressional Committee on Inaugural Ceremonies, for interpreting the inaugural ceremony. Hatfield said he anticipates that interpreting for the inauguration will become a tradition.

Jo Anne Simon of Student Special Services and Rhona Hartman, HEATH Resource Center, co-presented a program on "Resources for Campus Accessibility" at the American Association for Higher Education conference in Washington, DC on March 5.

Jane Reehl of the Biology Department will be participating in biomedical research for two months this summer at Lawrence Livermore Laboratory, University of California, Livermore. The research project will be on flow system analysis of rat liver cells.

Georgene Fritz, doctoral candidate in the Department of Administration, has been invited to participate in the Second Annual Graduate Student Seminar on Research in Educational Administration to be held in Los Angeles prior to the April 1981 American Educational Research Association meeting. Fritz is the first Gallaudet student to have been selected for this honor, for which advanced doctoral students from all North America compete.

Barry Crouch is an assistant professor with the History Department.

No summer day camp

Due to financial restrictions, the College for Continuing Education will not be able to provide the Day Camp Program for faculty, staff and students this summer.

HEX system in operation

What is HEX?

It's a computerized bulletin board which answers the telephone, takes messages and gives you messages and general announcements. It will talk to either a TDD or a computer terminal.

Isn't that like DEAFNET?

- Yes, but there are differences.
1. You don't need a box or a password (there are none) and the HEX is free.
 2. The HEX runs on a microcomputer and is therefore more limited. It can handle only one call at a time. If it's busy, just call back.
 3. It holds information useful to all handicapped individuals and is not limited to deaf people.

What does HEX do?

1. It accepts messages for other people and lets them read and delete the messages.
2. It includes information and data bases of interest to all handicapped persons (TDD numbers, other computer bulletin boards, meetings of handicapped

advocacy groups, courses of interest to the physically and mentally handicapped, signed artistic performances, etc.).

3. It serves as a means of exchanging technical information and ideas among those involved in the application of new technology (such as computers) to aid the handicapped. Any technically oriented people who would be interested in assisting in this area, and anyone who has ideas for things that are needed, are invited to call the HEX and pass along their ideas and interests.

Where did HEX come from?

It was developed under a grant from the Office of Special Education, Department of Education by the Amateur Radio Research and Development Corp. AMRAD is a non-profit group of radio and computer amateurs, many of whom are full-time professionals in the engineering and computer fields. It is involved in a number of communications projects to assist handicapped persons. AMRAD meets the first Monday of each month in the library at Vienna, VA at 7:30 p.m. Visitors are welcome. Many meetings are signed; if you are deaf and plan to attend, leave a message on HEX so they can try to have an interpreter present. Check HEX for the subject and date of the next AMRAD meeting.

How do you use HEX?

Call 593-7033 in Silver Spring, MD. You can use either a TDD or a computer terminal (300 Baud ASCII, no parity, Bell 103 modem). Answer questions asked and end the line with a carriage return. The Help command will tell you how to use the system. When you are through, enter the G (goodbye) command. Don't be afraid to identify yourself; there are no bills.

The information on HEX comes from its users. If there are things concerning handicapped persons that others should know about, leave a message.
